

ISSUE 4 TEXAS TEMPS

JULY 1ST-5TH

Site Supervisor: Lindsey
Activity Leader Kayma

During "Texas Temps" Week we focused on different types of Texas weather and cloud formations. (hurricanes, tornadoes, hail, ect.) Also campers learned about the states of water (liquid, gas, solid) and temps associated with the states. The campers took a field trip to Bahama Bucks in New Braunfels where they were able to make their very own "snow" and have a snowball fight. Then we were not able to go to the Fischer Park Splash Pad due to rain in the forecast so we instead went to Starplex theater and enjoyed movie meals and Toy Story 4 and managed to still have A LOT of fun!
